WORK EXPERIENCE

Instructional Designer & LMS Support | Ericsson | Remote | Oct. 2023-Present

Lead sales training and enablement content for employees and partners worldwide. Support LMS operations, migration, reporting, and user training.

- Conduct needs analysis and build curricula, objectives, practice, and assessments for seller roles.
- Translate technical product content into sales messaging for private 5G, neutral host networks, and enterprise wireless.
- Support rebranding and content refreshes across learning materials and the LMS.
- Coordinate global SMEs and partners through content review, instructional writing, QA, and delivery.
- Build custom Rise interactions with HTML, CSS, JavaScript, and AI-assisted prototyping.
- Pilot test learning content and use SME feedback to improve navigation, accessibility, interaction states, and completion behavior.
- Design scenario-based assessments with customer briefs, decision points, hints, and targeted feedback.
- Create Rise and Storyline courses, product tours, videos, motion graphics, job aids, and interactive activities.
- Support LMS migration and troubleshoot content, navigation, reporting, and workflow issues with administrators.
- Manage LMS training content and reports. Build Power BI dashboards and learning analytics.

- Create LMS navigation videos, user guides, and train-the-trainer resources. Cover LMS processes, reporting, analytics, enablement tools, and content-creation tools.

LMS Administration & Instructional Design Support | *October 2023-August 2024*

- Managed LMS content, learner records, course data, and reporting information.
- Automated LMS administration tasks with Python and Selenium.
- Facilitated ILT and VILT and supported learner tracking integrations.
- Managed Salesforce and Workday data, LMS reporting, content communications, and xAPI tracking.

L&D Freelance | Remote | Feb. 2022-Present

- Design eLearning, product guides, and assessments in Rise and Storyline based on client needs and SME input.
- Provide LMS administration, course organization, reporting support, and user guidance.
- Create job aids, process guides, performance support, facilitator guides, and train-the-trainer programs.
- Manage project timelines, client feedback, multimedia production, and content revisions.

AI Training Specialist & Content Evaluator | Outlier, Ethos, and private clients | Remote | Jun. 2023-Present

- Evaluate AI outputs for instruction following, accuracy, reasoning, clarity, and rubric alignment. Identify errors and write actionable feedback.
- Create reference responses, annotations, moderation decisions, and revisions for AI training projects.

Independent Portfolio & Learning Systems Development

Build and maintain a public portfolio and local portfolio-management workflow using AI-assisted implementation, responsive QA, structured records, and GitHub validation.

Earlier Instructional Design & Teaching | Alternatives in Action High School and Madison Park Academy Upper Campus | Oakland, CA | 2021-2023

Designed curriculum and digital learning across bilingual, in-person, and online classrooms. Used UDL, LMS tools, individualized supports, research, data analysis, and multimedia.
